SAMAMA OH&S MANAGEMENT SYSTEM ARAMCO CONTRACTOR REQUIREMENTS

Project Intro.

INDUSTRY: Maintenance
SECTOR: SERVICES

ERSME was contracted to develop a Health & Safety Management Systems for SAMAMA. The mobilization of the projects started on 14 April 2010 at the Riyadh offices. ERSME consultants visited SAMAMA sites in Riyadh and Yanbu, and after confirming the scope of activities and related processes, and determining the associated risk profiles, developed the draft OHS manual. The project is ongoing and SAMAMA is currently reviewing the manual.

Project Scope

The project scope covered the SAMAMA group and all subsidiaries and included the following outcomes:

- Meet the Aramco pre-qualification OH&S requirements-GN 07-004-2008
- Review of SAMAMA's Quality Policy / integrate with OH&S Manual
- Identify the OHS risks arising from the organizations past, existing or planned activities, products and services.
- Identity priorities and set appropriate OHS objectives and targets.
- Establish structures and programs to implement the policy and achieve objectives and meet targets.
- Development of registers, including the "Register of OH&S Risks" and the "Register of Legal and Other Requirements".
- The compilation of an OH&S Policy, OH&S Manuals, OH&S Procedures.
- Facilitate planning, control, monitoring, preventative and corrective actions, auditing and review activities to ensure both that the policy is complied with and that the OHS management system remains appropriate.
- The compilation of OHS plans aimed at achieving the determined objectives and targets.

OH&S MANUALS MEET ARAMCO GN: 07-004-2008 & OHSAS 18001:2007 REQUIREMENTS

Project Results

The OH&S Management System development project will result in the following outcomes for the company and participants:

- 1: A formal document hierarchy covering the following:
 - A Health and Safety Policy
 - OH&S Management System Manual
 - OH&S Core Management Procedures
 - OH&S Significant Risk and Technical Procedures
 - OH&S Toolkit including forms, checklists, data bases etc.
2. Development of OH&S Legal Risk Registers
3. Development and training on new OH&S Policy and OH&S Manual
4. Ability to tender for projects where OHS Management needs to be adequately demonstrated i.e. SAUDI ARAMCO.
5. Certification to OHSAS 18001:2007 standard
